

Escape-Proof Harnesses

One requirement that is simply non-negotiable is that your new rescue be fitted for an escape proof harness and that they wear it at all times outdoors for the first 3 months minimum. Never use a leash attached to a collar as this can damage your dog's neck, thyroid and trachea and is easy to back out of.

We have approved the following harnesses.

Ruffwear brand harness, model is
WebMaster

This is available at some Canadian retailers
(Homes Alive, online, smaller boutique shops)

Cost is approx \$65

<https://ruffwear.ca/products/web-master-harness>

Kerbl Escape Proof Dog Harness

This is a fundraiser where all proceeds go back to the rescue. Cost is approx \$45

<https://www.distancerunwear.com/kerbl-escape-proof-dog-harness.html>

These are available in stock in Vancouver at Distance Runwear or available to order online.
